DETAILED ACTION

Response to Amendment

1. In response to the Amendment received on February 08, 2010, the examiner has carefully considered the amendments. Applicant's request for reconsideration of the finality of the rejection of the last Office action is persuasive and, therefore, the finality of that action is withdrawn.

Response to Arguments

2. Applicant's arguments, see Remarks/Amendment, filed 2/08/2010, with respect to claims 9, 15 and 17-20 have been fully considered and are persuasive. The rejection of claims 9 and 20 under 35 USC 103(a) as being unpatentable over Felder et al (US4,308,400) in view of Gaske (US 3,844,916) has been withdrawn. Felder et al fails to set forth and/or render obvious the use of a photoinitiator having the formula V as found in instant claims 9 and 15 in combination with an ethylenically unsaturated compound that contains at least one aminoacrylate. In addition, Gaske et al fails to remedy the deficiencies of Felder et al since Gaske does not set forth and/or render obvious the use of a photoinitiator having the general formula V as found in instant claims 9 and 15.

Allowable Subject Matter

3. Claims 9, 15, and 17-20 are allowed.
4. The following is an examiner's statement of reasons for allowance: The prior art, alone or in combination, fails to set forth a process for the production of a scratch-resistant durable surface wherein the process includes applying a composition comprising a photoinitiator having the formula V, as found in claims 9 and 15, and an ethylenically unsaturated compound that contains an aminoacrylate.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
